Development of Grafting Technology to Improve Sustainability and Competitiveness of the U.S. Fruiting Vegetable Industry

A One-Day Symposium Convened by a USDA SCRI-Supported University-USDA-Industry Team

Double Tree San Diego-Mission Valley Hotel
7450 Hazard Center Drive
San Diego, CA 92108

Symposium Objectives

- Summarize the current status and expected future of grafting as a technology for enhancing U.S. vegetable production systems – profit, resource efficiency and sustainability
- Increase understanding of challenges and opportunities associated with preparing and using grafted vegetable plants
- Strengthen and diversify partnerships required to widen the application of vegetable grafting as cornerstone technology
- Describe Team goals and approaches, emphasizing its reliance on coordinated sets of stakeholder-driven research-extension activities

Registration and Other Information: Updated information about the symposium is available at www.vegetablegrafting.org

Presentation Submissions: Submit presentation and poster summaries to obsydoro@ncsu.edu by September 1, 2013.

Accommodations: Contact Double Tree San Diego Mission Valley Hotel (619-297-5466) for accommodations. Ask for the MEG Government Block or MET Standard Attendee Block rate.

The symposium is supported in part by the Specialty Crop Research Initiative (SCRI) of the USDA-NIFA
